If the above link does not work, alternatively go to www.spee.org then select 'Local Chapters', then 'Denver', then 'Register Now'.

Abstract: Jamie will provide an overview of the 2018 election results relating to oil and gas development as well as Colorado Oil and Gas Conservation Commission rule changes and their direct impact on the energy industry in Colorado. She will also discuss potential 2019 legislative efforts that could affect oil and gas operator development.

Speaker Bio.: Jamie L. Jost is the Founder and Managing Shareholder of Jost Energy Law, P.C. where she focuses on matters relating to exploration, development and production of oil and gas, as well as local, state, and federal regulatory issues in the Rocky Mountain region. She assists national and international clients with legislative and policy strategy planning, title, due diligence, acquisition and divestiture matters, land contracts and eminent domain matters. Jamie practices in front of the Colorado Oil & Gas Conservation Commission and the Wyoming Oil & Gas Conservation Commission, as well as federal and state courts on various energy issues. Jamie has served the Colorado Oil & Gas Association in various capacities since 2010 and was COGA's Counsel from 2013 to 2016. She is also a past trustee and author for the Rocky Mountain Mineral Law Foundation. With the exception of her role as Corporate Legal Counsel at Suncor Energy (U.S.A.) Inc., Jamie has represented the oil and gas industry in the private sector for over fifteen years to ensure that exploration, development, and operations continue to progress safely, efficiently and economically. She is licensed in Colorado, Wyoming and New Mexico and received her J.D. from the University of Wyoming and her undergraduate degree, cum laude, in Environmental Science and Industrial Hygiene from Indiana State University.

About SPEE: <http://www.spee.org> SPEE was formed in 1962 as a professional, non-profit organization bringing together specialists in the evaluation of petroleum properties. SPEE continues today to be strongly committed to providing educational and other services to its members and to the oil and gas industry, and to promoting the profession of petroleum evaluation engineering.
